Black Camelot's Dawn
Release Date, December 2020

Fero Scitus Book Publishing is excited to announce *Black Camelot's Dawn*, the second book in the Black Camelot series. The original sale date was be December, 2020. A revised edition was completed in March 2021

Black Camelot's Dawn, as *The Publisher's Dilemma* is available to retailers and independent bookstores that buy through the Ingram Wholesalers network. Readers can buy directly through their local bookstore, bookshop.org or through amazon.com and Barnes&Nobles.com

Black Camelot's Dawn picks up after the exciting action of *The Publisher's Dilemma*, which introduces readers to the primary characters, Donald Alexander and Kwame Mills as African-American business executives at the Harris Simmons Media Company.

The gossip writers, Luke McFlemming of *The News*, Mike Desanctis of *The Post* and Jennifer Kung of *The Ledger* are nicknamed The Celebrity Hack Patrol because of their relentless and combative personalities. They named Alexander, Mills and their high-society friends the Black Camelot's as a way to develop more stories.

Alexander, Mills and Samantha Rivers, the mixed-race illegitimate child of one of the now deceased batboy CEO of the legendary family-owned media company Harris Simmons were tasked to sell the company and "go do some good." As a result of the sale, Alexander has become a billionaire and Mills and Rivers fabulously wealthy. The nickname of Black Camelot fits them and their press-branded moniker as they are now rich, stylish, sophisticated and charged with fulfilling civic missions.

White supremacist groups emerge that don't believe in black royalty and come to New York with an assignment to end Black Camelot. But they are met by a resistant force they did

not anticipate. The Black Camelot's have been admitted and are under the protection of the world's most powerful secret society.

A secondary character has re-emerged, in Dawn Davis Stuart, aka, Madame Hot Temper. She returns to the city after serving a jail term, at the behest of her estranged Father-in-Law. They now have joined forces to take down a sinister foe who has through purposeful deceit and manipulation destroyed their family.
